

FAQ - DIY 10mm frameless shower fixed panel

Do your screens comply with Australian Standards?

Yes, all our 10mm stock panels are tested and certified as complying with the requirements of Australian & New Zealand Standard 2208: 1996 - Safety Glazing Material in Buildings

What if I mismeasure, can I have my panels cut down?

No, our stock panels are toughened glass which means they cannot be adjusted. You will need to order a new panel.

Do you install shower screens?

We do install shower panels within our local area, please contact us for a quote.

Do my walls and floors need to be plumb?

It is best if your walls and floors are square with a 5mm tolerance. Custom-made panels can be cut to suit your space or for walls that are out by up to 8mm you can use wall channel to hide the run out.

Can you supply custom-made?

Yes, we supply custom-made glass to suit, please email a diagram of your glass for a quote.

Do I need to use a support bar or a shelf?

We recommend support bars are installed on panels over 1200mm and wider. These can be purchased through us.

Will your shower screens fit on a shower base?

Yes, our fixed panels are designed to sit directly onto tiled floors or shower bases.

What hardware colours can I choose from?

Hardware brackets are available in satin, chrome, black and brushed gold.

Do you have a showroom that I can visit?

Yes, we have a showroom located at Shop 7 97-105 Melbourne Street Mulwala
